## In Brief

### Children First Consortium picked for children's centre

TORONTO

Children First Consortium has been selected as the preferred proponent to design, build and finance the Grandview Children's Centre Redevelopment project in Ajax, Ont.

Infrastructure Ontario (IO) and Grandview Kids selected Children First Consortium following a request for proposals process that began in May 2021.

The consortium team includes applicant lead Amico Design Build Inc., Sacyr Construction S.A; design team Parkin Architects, H.H. Angus and Associates Limited; construction team Amico Design Build Inc., Sacyr Construction S.A; and financial adviser Stonebridge Financial Corporation.

The new building is expected reduce wait times, make services easier to access and improve the range of rehabilitation services for children and youth with special needs in the Durham region and surrounding areas. Once complete, Grandview Kids will consolidate its existing main site in Oshawa and multiple satellite locations into the new purpose-built facility.

IO and Grandview Kids will work with Children First Consortium to finalize contract details.

The project is expected to reach financial close in the coming weeks, which will mean that relevant contracts have been signed and a financing rate has been set, indicates a release, adding the contract cost will be announced publicly following financial close and construction is scheduled to begin shortly thereafter.

# **NAWIC Women in Construction Week** events focus on envisioning equity

Women in Construction Week

#### **ANGELA GISMONDI** STAFF WRITER

omen in Construction (WIC) Week is an opportunity to amplify women's voices and show appreciation for one another and all they do to make construction better, says a representative with the National Association of Women in Construction (NAWIC).

WIC Week runs until March 12 and NAWIC and their members are celebrating with a number of events at the national, regional and local levels both virtually and in-person.

The theme this year is Envision Equity, with a focus on raising awareness about the wide range of opportunities and roles available for women including tradeswomen, project managers, administrative positions and business ownership.

"As we know they (women) make up a very small population in the construction industry, so we really want to be able to amplify their voices and raise awareness that women are here, they are a valuable asset to every single construction company, they bring so

NATIONAL ASSOCIATION OF WOMEN IN CONSTRUCTION

The National Association of Women in Construction will be hosting two national events for Women in Construction Week, which runs until March 12. The theme this year is Envision Equity with the focus on raising awareness on the variety of opportunities for women in the field.

many great skills," stated Makenzie Plusnick, aware...of the importance of adding women communications manager with NAWIC. "It's to their team." important that construction companies are

## Altus Group predicts 4 per cent growth in 2022, cost normalization after two years

#### **DON WALL** STAFF WRITER

wo top real estate economists from Altus Group believe interest rates could spike two per cent by the end of 2023 and construction costs could continue to spiral for a couple of years as well. Altus Group's vice-president of data operations Raymond Wong and the firm's vice-president and chief economist Peter Norman also forecasted national GDP

growth of four per cent for 2022 but no end in sight for the paucity of supply of single-family homes.

The forecasts came during the firm's National State of the Market 2022 webinar held late last month. Norman said concerns over worry for businesses - heightened volatility.

"When we talk about volatility, we talk about the influence that this has on our decisions and on our investment decisions, and that volatility has been very, very raised through this period because of the possible lingering effects of waves of the pandemic and policy responses to the pandemic that have caused these massive gyrations in what goes on," said Norman.

he said, there should be a normalizing of economic growth nationally, and the predictions of continued inflation for the next couple of years will eventually end with a normalizing in that indicator as well.

In Alberta, Norman said, "We

## Great Gulf Group adds to residential leadership team

TORONTO

Great Gulf Group has announced new members of its residential leadership team.

The executives will be responsible for growth of the firm's low-rise, highrise and resort residential groups in Canada and the U.S.

Great Gulf has created three distinct platforms within its residential division.

Kathleen Schofield is appointed president of low-rise residential Canada, Niall Collins becomes president and COO of Great Gulf Group's newly created North American highrise residential platform, and Michael Sneyd has been appointed president of the new North American resort residential platform.

The Great Gulf Group includes Great Gulf Homes, a low-rise and highrise residential developer; Ashton Woods Homes, developer of private design-build industrial facilities; Tucker HiRise, a construction management company specializing in high-density, mixed-used projects; H+ME Technology, an engineering panelization manufacturing facility; and Taboo Muskoka, a golf course resort in Ontario.

## Nova Scotia Pension buys Illinois EV manufacturing project

#### TORONTO

Avison Young Investment Management announced the acquisition of a 900,000-square-foot Class A industrial facility in Joliet, Ill. on behalf of the Nova Scotia Pension Services Corporation.

The industrial facility, developed by

Clarius Partners, will serve as the largest production site for Montreal-based Lion Electric, stated a recent release.

Lion designs and manufactures electric medium- and heavy-duty commercial urban trucks and electric buses and minibuses for the school, paratransit and

mass transit segments. Once completed in 2022, the facility will become the largest production site for zero-emission medium- and heavy-duty vehicles in the U.S., with an expected production capacity of 20,000 vehicles per year. DCN-JOC NEWS SERVICES

### **Economy at a Glance**

Prepared by Alex Carrick, ConstructConnect<sup>®</sup> Chief Economist

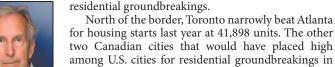

## **Riveting Contest for Dominant Share, Singles** vs Multiples, in Major Cities (Part I)

When it comes to new residential construction in the U.S., building permit figures in units are generally accepted as a good proxy (or fill-in) for housing starts. For the 36 most populous cities in the U.S., the state of Texas claimed three of the five leaders for highest level of starts in full year 2021. Dallas-Ft Worth (76,909 units) was number one; Houston (69,053 units) was number two; and Austin (50,772 units) took fifth spot. Rounding out the top five were the huge metropolis

of New York (3rd at 58,035 units) and the buzz-worthy city of Phoenix (4th at 51,923 units). The status of

Phoenix as an economic 'hot' zone has been reaffirmed by Intel's decision to spend \$20 billion expanding its existing presence there to accommodate two new computer chipmaking plants.

Next in line after the Top 5 was Atlanta with 39,296 units of

for housing starts last year at 41,898 units. The other two Canadian cities that would have placed high among U.S. cities for residential groundbreakings in 2021 were Montreal (32,343 units) and Vancouver (26,013 units).

As for year-over-year percentage changes in permits or starts among U.S. cities in full year 2021, Philadelphia was the standout, +132.9%. But the more than doubling of Philly's starts moved the city only into seventh position for level, at 37,449 units.

Denver achieved the second biggest y/y gain in units, +53.5%, but that bumped its ranking to just twelfth spot for level, at 30,044 units.

#### YEAR TO DATE RESIDENTIAL PERMITS ISSUED (UNITS) IN THE 36 MOST POPULOUS U.S. METRO STATISTICAL AREAS (MSAs) (FULL YEAR 2021)

## **NAWIC** hosting diversity panel March 7

#### Continued from Pg. 1

NAWIC, headquartered in Fort Worth, Texas will be hosting a DE&I (diversity, equity and inclusion) panel in collaboration with Puget Sound today (March 7) at 11 a.m.

"You're going to hear from women in all sectors of the construction industry and really get a good feel on why DE&I is so important for the industry," Plusnick noted.

Other events and activities will be happening across the country throughout the week. Events include presentations, jobsite tours, luncheons and virtual events that are open to everyone.

"If you go on our WIC site through nawic.org we have a ton of chapter events happening all over the U.S.," said Plusnick. "There are hundreds of events happening throughout the week both virtually and in person so people are able to find events put on by chapters if they want to attend in person or they can attend an event across the country virtually. We'll continue to add events throughout the week."

NATIONAL ASSOCIATION OF WOMEN IN CONSTRUCTION The National Association of Women in Construction's (NAWIC) Women in Construction Week will feature a number of events to celebrate and recognize women. NAWIC national, along with chapters in the U.S., Canada and around the world, will be hosting presentations, luncheons, jobsite visits and more.

WIC Week is a great opportunity to learn about and celebrate the contributions of women in the industry.

"It's a great way to extend your appreciation and expand your knowledge on the topic of women in construction," said Plusnick.

"For companies, it's a really great way to recognize your women employees and it's also a really great way of educating your employees on 'hey, women are here and we need to be treating them equitably and fairly."

In 2021, women made up 11 per cent of the construction industry in the U.S.

"That's such a small fraction of the industry as a whole," Plusnick pointed out, adding it's also important to bring to the forefront the challenges that women face. "The educational aspect is so important because they are still being catcalled, there is still sexism, there are still unfair wages, there are still so many things that need progress, that need to be fixed."

WIC week was started by NAWIC in 1998.

NAWIC itself was started in 1953 as the Women in Construction of Fort Worth, Texas. In 1955 it gained its national charter and became the National Association of Women in Construction and since then has continued to grow and expand.

We are just shy of 5,000 members," said Plusnick. "We have 118 chapters currently across the United States and five global affiliates all over the world. All these chapters are providing support networks, they're providing networking opportunities, they are providing education and professional development events to their members."

The Canadian Association of Women in Construction will be hosting its Winter Social on March 8, International Women's Day, from 6 to 8 p.m. Members and non-members are invited to attend the virtual event which will include networking, raffle prizes, speeches, awards and recognitions.

Reema Zuberi, area manager for Thyssen Mining, will be the guest speaker for the event. She will discuss breaking down barriers as a woman in construction.

For more on the event visit https://cawic.ca/ events/#!event/2022/3/8/cawic-2022-winter-social.

For more information on NAWIC visit www.nawic.org.

## OGCA and LOC release women in ICI video series

#### TORONTO

In celebration of Women in Construction (WIC) Week, which runs until March 12, the Ontario General Contractors Association (OGCA) and League of Champions are highlighting the work of women in the ICI construction sector by releasing a series of interviews with those in the field and the office.

Special focus was put to ensure the interviews highlight the experience onsite, in management roles and the design industry. Interviews include a crane operator, a carpenter, a heavy equipment apprentice and a health and safety professional.

Women account for approximately 12 per cent of Ontario's construction industry workforce, including off-site business administration, management and sales, states a release, adding WIC Week is a time that brings to the fore the opportunities that are available to women in construction and at the same time, traces the history of women in construction, their challenges, and the ways they've been able to overcome them.

"We wanted to show why construc-

tion is a fit for everyone and why other women should find a career in the trades," said Sabrina Tropiano, communications and engagement co-ordinator at the OGCA, in a statement.

"This week was about sharing the stories of strong, proud women who are paving the way for the next generation of workers in the construction industry. We are everywhere."

To view the interviews and the launch video, visit Ontario General Contractors Association - YouTube.

### SNC-Lavalin at a net loss after pandemic stalls major projects

SNC-Lavalin Group Inc. felt the fallout of the COVID-19 pandemic last quarter, (LSTK) projects - fixed-

MONTREAL has shifted its focus to engineering services and away from so-called lump-sum turnkey light-rail network.

Construction on the first two will wrap up this year, Edwards said. Nonetheless,

- despite a \$93-million win in an arbitration decision compared with a loss \$702.7 million in the same period a

Page 3

Sales of multi-family residential units remain high in the GTA with communities an hour or two away from Toronto continuing to see high demand as Toronto prices spike. Pictured, highrise residential in Hamilton under construction, 2019.

## Future of offices, housing availability top concerns

#### Continued from Pg. 1

"Other sectors like Ontario and Quebec that saw quite a lot of growth in 2021, we'll start to see more normalized growth as we go forward."

The volatility led to what the International Monetary Fund called a "disrupted recovery," Norman said.

Canada had a GDP loss of 5.2 per cent during the first year of the pandemic in 2020, a gain of 3.4 per cent in 2021 and a projected further gain of 4.0 per cent this year, Altus Group predicts.

As for GDP growth in the provinces, Alberta is expected to grow 6.0 per cent in 2022, Ontario should be at 3.8 per cent growth and B.C. is expected to expand 4.0 per cent.

Focusing on construction, Wong listed familiar constraints to growth including resource availability, prices and materials, labour force, logistics and supply chains, and introduced a new concern - rent increases in the warehouse sector.

"Industrial rents right across Canada, because of low availability rates, especially in Toronto and Vancouver, of less than one per cent, have really pushed up," Wong explained. "Rental rates are higher and whether or not companies can still keep up with the increase in rents and pass some of those costs off on the consumer products remains to be seen."

Overall, office availability rates are probably going to remain flat, he said.

One bright spot among several in 2021 was overall commercial investment,

Wong said it was a record year, with a complete recovery from 2020 resulting in a rise in investment activity of over 45 per cent.

Commercial investors should be looking at life sciences buildings, data centres, self-storage, cold storage and purpose-built rental, Wong said.

"There's a lot more capital that is chasing very few assets," he said. "Especially with a lot of activity that we saw in December and November of 2021 that we'll be pushing to this year. So we're going to have probably a record first quarter."

Norman then addressed the residential market, saying the biggest story currently is the lack of available single-family units, especially in the GTA. Aging millennials have moved through rentals and condos and now want singles but the supply is severely limited. And Gen Z will be following.

"This is the kind of trend which is showing very, very hot resale markets in areas that are one or two hours from Toronto, Vancouver, etc., because these are the markets that a greater number of people are realizing they can get somewhat more affordable housing, larger houses and can still interact with their offices in a more hybrid or remote way without too much stress," he said. He named Hamilton and Niagara in southern Ontario as in hot demand. Right now, there are 770 lots remaining in inventory for single-family homes across all the GTA, Norman said. A year ago it was over 2,300 and years ago it was over 5,000.

as sick workers and supply chain woes stalled projects in a development that could add millions more dollars in losses.

After three straight quarters of profits, the engineering firm swung to a loss of almost \$53 million in the quarter ended Dec. 31, surprising analysts, who called the financial results "weak" and "messy."

"With the Omicron variant...we were seeing absenteeism of up to 50 per cent on some of the jobs. And we saw a significant spike in productivity loss," CEO Ian Edwards told analysts.

Under his stewardship since June 2019, SNC-Lavalin price contracts under which companies have to eat any cost overruns.

SNC's engineering segment churned out sturdy numbers in the fourth quarter, accounting for 89 per cent of its nearly \$2-billion revenue. It yielded an organic growth rate of nearly 12 per cent and a \$10.9-billion backlog.

But large, fixed-price projects drained \$231 million from company coffers in three months, even as Edwards reduced the LSTK backlog. The contracts include Toronto's Eglinton Crosstown lightrail line, Ottawa's Trillium Line rail extension and the greater Montreal area's REM future financial risks on LSTK projects range up to \$300 million, according to SNC.

On top of a labour shortage, supply chain disruptions and rising prices prompted delays and cost overruns.

"For example on Trillium, at most of the stations the concrete and steel is finished, but we're waiting on glass," Edwards said.

"That's components from China post-pandemic. And then all these things add to delay...And as you can see, inflation has been pretty significant."

SNC-Lavalin also recently reported a net loss of \$52.9 million in its fourth quarter year earlier.

Revenue totalled \$1.94 billion in the quarter, up from nearly \$1.70 billion the year before. On an adjusted basis, the company's net loss from professional services and project management, which represent the vast majority of SNC-Lavalin's activities, came in at 15 cents per diluted share compared with a loss of \$1.53 per diluted share in the fourth quarter of 2020.

The Montreal-based company is forecasting organic revenue growth in its services segment of four to six per cent this year, in line with its 2022-2024 targets.

THE CANADIAN PRESS

Another uncertainty is the future of offices.

"I think going forward that is going to be a sort of a wait and see, whether or not people go back to the office,

but there's other issues that you're dealing with right now such as the fear of public transit, and workers being able to get back onto public transportation to get to the office," said Wong.

For the purpose of selecting a qualified construction management firm experienced in preconstruction services and construction management for the Project Horizon - Decanting and Early Works Projects. As an organization of the Broader Public Sector (BPS) and in compliance with the Supply Chain Directives, SickKids is requesting proposals for qualified construction management firms for the Project Horizon - Decanting and Early Works Projects. Project Horizon is a multi-year phased redevelopment project to transform the delivery of paediatric care, meet growth needs and replace aging, outdated infrastructure. The Early Works Program will involve the renovation of approximately 436,000 CGSF of space to accommodate this phased construction within the Hospitals owned premises, as well offsite leased buildings, with a construction value up to \$400M. If interested, please refer to Biddingo.com to download SickKids "RFP# 2122-51-000 Project Horizon Construction Manager - Early Works" and all supporting documents for further information and instructions. Proponent deadline to submit clarification guestions via Biddingo.com Clarification Request Deadline February 22, 2022. \*The project value listed reflects the total project estimate.

- Toronto Community Housing Corporation (TCHC) is seeking a vendor for the provision of construction services for 17 Vacant Units Rehabilitation at 50 Torbolton Drive, TCHC will be awarding the project work to the lowest total priced Proposal. This building has been vacant for over fifteen years. In 2021 the interior of the building was largely demolished and prepared for reconstruction. After this time, the design team reviewed the remaining conditions and updated their design accordingly. This work is categorized as holistic, Passive House renovation and reconstruction of retaining wall. The design meets Passive House Canada design practices and the construction of 50 Torbolton Drive must be certified by Passive House Canada. There is a photovoltaic array on the roof that will also classify this building as Net Zero compliant. - The Township of Minden Hills is seeking qualified bids to replace the Sedgwick Road Bridge. The work shall generally consist of the replacement of the Sedgwick Bridge as follows: Sedgwick Road Bridge Replacement The Sedgwick Bridge (MH#8) located on Sedgwick Road in Gelert, Ontario is a single lane cast-in-place concrete t-beam structure with an overall length of approximately 16.3 m. The structure was built in or around 1920. The Sedgwick Bridge will be removed entirely and replaced with a new pre-cast concrete structure with distribution slab and spread footings complete with wing walls, guiderail rehabilitation and asphalt road reconstruction. Gelert Rail Trail Bridge for Repair and Detour The Gelert Railway Bridge (#RT-2) located on the Haliburton Rail Trail has one lane within an approximate 3.8 m wide platform. The bridge is part of the recreational Haliburton Rail Trail connecting Francis Road to Cemetery Road. The bridge will be utilized as a temporary detour route for local traffic only while construction takes place at Sedgwick Bridge. Prior to road closure at Sedgwick Road Bridge, repairs, and modifications related to the existing Rail Trail Bridge deck components and safety barriers shall take place to provide a detour route. Documents are available at:
- https://mindenhills.ca/tenders/ onstruction start 25-Apr-22; Completion by 05-Nov-

- The City of Hamilton is seeking to pre-qualify a maximum of five (5) Applicants. These Successful Applicants will perform work as Building Management Control Systems (BMCS) contractors for the installation of the new systems or the replacement of the existing building control systems. The Successful Applicant(s) shall be utilized as General Contractor, or potential sub-contractors to General Contractors for construction projects issued by the City of Hamilton. The Successful Applicant(s) will be included in future construction tender documents as the only permitted sub-contractors for BAS systems. The City may also utilize this pre-qualified list to issue direct tenders for supply and install or maintenance. The new BMCS systems shall include remote programmable digital controllers (RPDC), installed in each building and connected to a virtual enterprise server provided by the City's IT department. The new BMCS should have communications abilities to be integrated with other building control equipment (i.e. chillers, VFD's, rooftop units) and systems via communication protocols such as BACnet, Lonworks, Modbus, and TPC/IP or other open source communication protocol. ### PROPOSAL - CASO TRAIL CONSTRUCTION \$600,000 est

#### CHATHAM, Chatham-Kent, ON

Multiple Locations, Chatham, N7M 1E9

- TENDERS DUE, 16-Mar-22 at 1:30 PM ET. Solicitation #: R22-186
- Owner: Municipality of Chatham-Kent, 315 King St W, Chatham ON N7M 5K8 519-360-1998 Fax: 519-436-3204
- Con Admin: Municipality of Chatham-Kent, Genevieve Champagne, 315 King St W, Chatham ON N7M 5K8 519-360-1998 Fax: 519-436-3204

The Municipality of Chatham-Kent is inviting proposals for the completion of the CASO Trail construction. The project consists of two phases; phase 1- is 6.72 KM in length, while phase 2- is 14.04 KM in length. The trail needs to be graded to a level working surface with obstacles and debris removed from the intented path, once completed then 4" of crusherdust is to be laid at 3m wide using a paving machine to achieve a uniform and level installation with the installation of a weed and dust suppressant TCI 3400 H.D Organic Dust Control and Hardener. Phase 3 is a provisional item regarding top up maintenance for 11 KM requiring 2" of crusherdust to be laid ontop of the exisitng trail at 3m wide, with final compaction at the time of completion of this phase. - The work under this Contract generally consists of the Reconstruction of Argyle Street and McKenzie Street from Cambria Street to St. David Street. The Reconstruction activities primarily relate to the improving of roadway drainage, replacement of the existing sanitary sewer, watermain and storm sewer. New sidewalks and curb shall be installed where indicated on the plans. This project will also include the coordination with CN Rail during work in the McKenzie Street and Cambria Street intersection. The Contractor will not be allowed to close any street without the express written consent of the City. Work it to be completed in two stages to reduce impact to citizens. Question Deadline: Thu Mar 17, 2022 2:00:00 PM (EDT) Documents are available at: https://stratford.bidsandtenders.ca/
- Construction start 02-May-22; Completion by 19-Sep-22;

www.dcnonl.com/certificates-and-notices Visit search all Certificates of Substantial Performance, Certificates of Completion of Subcontract, Notices of Intention to Register a Condominium, Notices of Non-Payment of Holdback, and Notices of Termination.

NOTICE: Effective July 1, 2018, amendments to the Construction Act are reflected in the Certificates and Notices section of Daily Commercial News. These amendments required minor changes to the forms for Certificate of Substantial Performance (now called Form 9), Certificate of Completion of Subcontract (now called Form 10), and Notice of Intention to Register a Condominium (now called Form 11). The amendments also required publishing of two new notices: Notice of Non-Payment of Holdback using Form 6, and Notice of Termination using Form 8. To learn more about the amendments, visit www.dcnonl.com/ construction-act.

Visit www.dcnonl.com/submit-manual to download Forms 6, 8, 9, 10 and 11.

To publish certificates and notices, email dcncertificates@constructconnect.com or fax 1-800-947-7966. For more information call 905-752-5482.

Those placing notices are responsible for ensuring Daily Commercial News receives, by fax or otherwise, all necessary information and for reviewing Daily Commercial News upon publication for any errors or omissions and advising Daily Commercial News at once. Daily Commercial News will make good any errors or omissions attributable to it in the next available issue, but will otherwise bear no liability whatsoever for any failure to publish any notice, however caused and even

if arising from Daily Commercial News' own negligence.
