IO signs deal with Kahua for information management

ALPHARETTA, GA. Georgia-based Kahua has announced it's been selected by Infrastructure Ontario (IO) to track its 10-year, \$106-billion capital improvement plan through new project-management information software.

The firm is active in the construction project management information sector (PMIS), stated a release. Kahua said it will replace obsolete IO systems and consolidate software.

Among projects Kahua cited it will be working on in the next decade are new transit-oriented communities within the Greater Toronto Area, high-speed internet and new and upgraded health care facilities.

Kahua said IO needed a solution that could be configured but did not require a lengthy customization process.

"Being able to easily collect data for reporting issues in the field is one example of the many configuration capabilities that is appealing, as well as the ease of integration with other platforms, such as accounting, GIS and procurement systems," stated the release.

Kahua will also provide expertise for P3 projects.

"When mixing public and private monies, it is crucial to track funds' origination and compliance in terms of how they are utilized," said the firm.

In addition, Kahua will advise on commercial transactions, including major land developments.

"Kahua is an excellent fit for Infrastructure Ontario's upcoming capital projects," said Scott Unger, Kahua CEO. "IO requires a PMIS that can handle a diverse set of needs, including superior P3 oversight and cost management. We are proud to provide that for them."

CSA survey on women's PPE finds you can't just shrink it and pink it

ANGELA GISMONDI
STAFF WRITER

When it comes to making PPE for women's bodies, you can't just shrink it and pink it.

A new report published by CSA Group, Canadian Women's Experiences with Personal Protective Equipment in the Workplace, found only six per cent of women say PPE they wear is designed for them.

The report looks at the current state of how PPE is meeting the needs of women and includes first-hand experiences, said Jennifer Teague, vice-president of standards research and planning with CSA Group. It's based on the results of a survey of nearly 3,000 Canadian women from different sectors.

"What became clear in that report was that this is a long-standing issue. This is something that has been raised for decades, but certainly as society progresses and we get better at really considering the individual needs of

populations and greater movement towards equity diversity and inclusivity, we wanted to take a harder close look at the experiences of women in terms of their PPE," Teague told the Daily Commercial News.

According to the report, the three most common problems the women surveyed have are: it does not fit properly (50 per cent); it is uncomfortable to wear (43 per cent); and the selection of women-specific PPE is inadequate (35 per cent).

They reported they use PPE that is the wrong size at least some of the time (58 per cent); they don't wear all the required PPE at work because of issues with fit (28 per cent); and they use a workaround to make their PPE fit (38 per cent).

Thirty-five per cent of female respondents in construction, transportation and emergency services felt very protected by their PPE, the lowest percentage of any sector, said Teague.

"As we are looking at labour

SHUTTERSTOCK

A new report published by CSA Group, Canadian Women's Experiences with Personal Protective Equipment in the Workplace, found only six per cent of women say PPE they wear is designed for them.

shortages in key sectors, we have more women entering the trades and all people should have a right to be protected equally through their PPE," she said.

"It's something that we really need to take a close look at and be mindful of when we're providing PPE for our workforce, that we give women an opportunity to access...

the same level of protection as their male colleagues. It's important to their sense of safety but also to feel confident in what they do."

The report is important for those in the standards development industry, government, employers, employees and manufacturers.

CCPPP CEO Mitchell offers prescription for dealing with upheaval in P3 sector

Lisa Mitchell

DON WALL
STAFF WRITER

Public-private partnerships in Canada are now 30 years old and have reached a crossroads, delegates attending the recent Canadian Council for Public-Private Partnerships (CCPPP) conference heard.

P3s have an undeniable legacy of successes, CCPPP president and CEO Lisa Mitchell said in her Nov. 21 conference kick-off address, but in recent years they have also been beset with

debates, abandoned projects, continuing criticism from the likes of Ontario's auditor general and questions about untested new procurement models.

What's needed, Mitchell said, is for P3s to get back to the fundamentals that have made them successful but at the same time they must adapt and become ready for an unpredictable future.

Her address was billed as How the Canadian P3 Sector Can Triumph in a Time of Upheaval.

"I believe not only in the

viability but in the superiority of the P3 model," Mitchell told the Toronto audience attending the first in-person CCPPP conference since 2019. "And yeah, it's been knocked around a bit, but it hasn't been knocked down or knocked out."

Speaking before Mitchell, outgoing CCPPP chair Mark Bain said with so much change and challenges facing both the broader construction sector and the P3 niche, it's critical for the council to evolve.

Port of Hamilton gets funds for steel-handling infrastructure

Omar Alghabra
Federal Minister of Transport

HAMILTON, ONT. The federal government has announced \$4.9 million in funding to support upgrades to the transport of steel at the Port of Hamilton.

The \$10-million project is being led by the Hamilton Oshawa Port Authority (HOPA).

The project includes the construction of a new 20,000-square-metre rail transload facility at Pier 15, designed specifically for the handling of steel products. The new infrastructure will boost shipments of steel by ship, road and rail, stated a release.

When completed, the facility will add more than 100,000 megatons of new steel-handling capacity at the port.

“As the largest port in Ontario, the Port of Hamilton is the key supply-chain gateway for steel and other essential goods that feed the region’s economy,” said Ian Hamilton, HOPA CEO, in a statement. “This investment will help to ensure a reliable supply of steel necessary for residential and civil construction projects and for Ontario manufacturers.”

Developers announce twin-tower rental project in Laval

LAVAL, QUE.

Cominar, Cogir Real Estate and Divco have announced the launch of a mixed-use residential project with 363 rental apartments in two towers in Laval, Que.

The 160,000-square-foot property is located on Daniel-Johnson Boulevard in the Centropolis community.

The first floor will feature commercial space. On the grounds, the project will offer 40,000 square feet of

green space, developed to minimize the heat-island effect, stated a release.

The project will be branded as Mostra Centropolis. Architecture was developed by Forme Studio Architecture, with Frederic Clairoux responsible for interiors.

The towers will rise 12 and 15 storeys with 193 and 170 units respectively. Features and amenities will include a gym, indoor pool, community kitchen,

en, co-working spaces, children’s play areas, urban chalet and rooftop terrace. Besides indoor parking there will be storage and bicycle spaces.

Cominar is one of the largest real estate owners and managers in Quebec; Cogir manages 345 properties throughout Canada and the United States; and Divco is a general contractor with 55 years in the business.

Economy at a Glance

Prepared by Alex Carrick, ConstructConnect® Chief Economist

U.S. October Jobs Report a Near Repeat of September’s

Alex Carrick

A month ago, the Employment Situation report from the Bureau of Labor Statistics (BLS) reported a U.S. total jobs-count increase during September of +263,000. Now, for the month of October, a nearly identical change in total employment has been estimated by the BLS, +261,000 jobs. (By the way, September’s figure has just been revised to +315,000.)

These are strange times indeed. The Federal Reserve isn’t being shy about its intentions. Using the blunt instrument of interest rates, it intends to bring the economy to the edge (or beyond) of recession, to put a stop to too-rapid price inflation.

So far, the impact on the U.S. labor market has been minimal. The most recent initial jobless claims number, for the week ending October 29, stayed exceptionally low at 217,000. The seasonally adjusted (SA) unemployment rate currently sits at 3.7%; the not seasonally adjusted (NSA) U rate at 3.4%. Both levels indicate a demand for workers well in excess of supply.

But as the Fed continues along its path of yield hikes, there’s going to be a moment when the labor market numbers turn decidedly sour. The Federal Open Market Committee (FOMC), on November 2, implemented its fourth 75 basis point increase this year. Plus, there was an accompanying message that while future increments to the federal funds rate may be cut back somewhat, there are no guarantees about when, or at what level, its peak will be reached.

There’s an interesting dynamic at play. No one likes runaway inflation. But it’s possible that American workers, through loss of employment, may be sacrificed by their central bank to a supposed common cause. Is the cure worse than the disease? This is a question that’s been asked throughout history and the general consensus is that economies do better with a relatively stable price environment, even when that entails occasional periods of labor market pain.

The manufacturing sector made a significant contribution to the total jobs-count increase in September, with hiring of an

additional +32,000 workers. Average monthly employment in manufacturing to date this year has been +37,000, comparing favorably with last year’s Jan-Oct number of +28,000. The NSA unemployment rate in manufacturing is presently 3.1%.

It appears efforts to re-shore U.S. manufacturing jobs are paying off. Through capital spending on new and expanding production plants, this will have positive carry-forward meaning for construction firms. ConstructConnect’s construction starts statistics this year contain an abundance of mega-sized industrial groundbreakings (i.e., individual projects of a billion dollars or more each.)

The construction industry itself had a weak hiring month in October, only +1,000 jobs. But on a happier note, 2022’s year-to-date monthly average gain in on-site employment has been +18,000, which is nearly double last year’s Jan-Oct pace of +10,000.

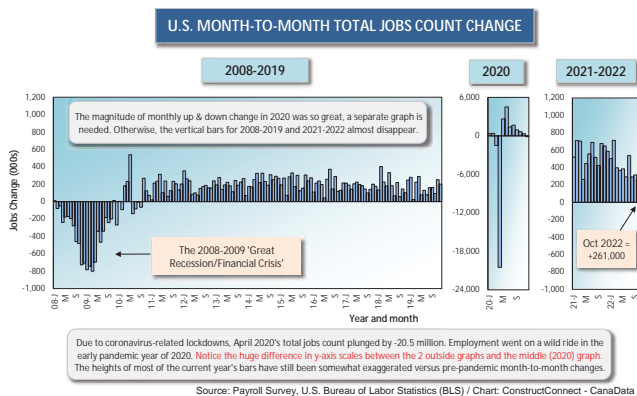

Construction’s NSA U rate is now 4.1%, up from September’s 3.4%, and about on a par with October of last year’s 4.0%.

Construction workers, including supervisory personnel, are reaping higher earnings rewards than most employees, however. In September, their year-over-year hourly and weekly wage increases were +5.6% and +5.8% respectively, beating the +4.7% and +3.8% jumps for ‘all jobs’.

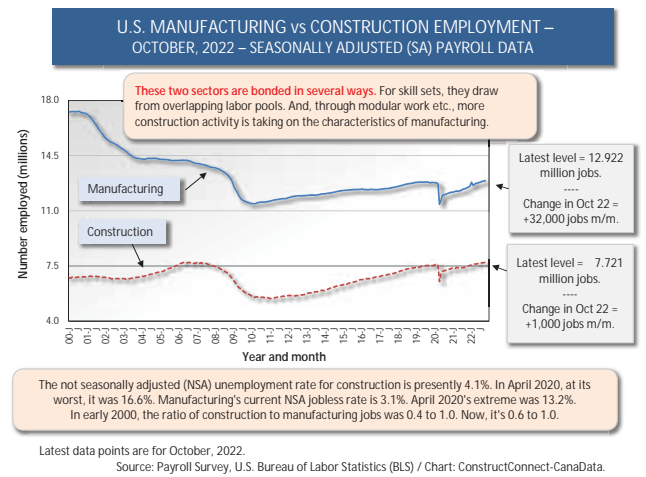

Leaving out bosses, construction workers as an employee class were even further ahead than all workers on the compensation front in September. Year over year, they received +6.6% hourly and +7.1% weekly to +5.5% hourly and +4.8% weekly for ‘all jobs’.

Some other notable numbers from September’s Employment Situation report include: (1) a current 0.8% unemployment rate for workers in the mining and oil and gas extraction sector; (2) a robust +71,000 monthly increase in jobs in health care and social assistance; and (3) a year-over-year increase in ‘hospitality and leisure’ employment (i.e., in hotels, bars and restaurants) that, at +7.9%, is more than twice the pickup in total U.S. staffing, +3.6%.

'All people should have a right to be protected equally through their PPE'

Continued from Pg. 1

"You can't just make an extra small and say that it's for women. Our bodies are different, we have different proportional needs, we have different functional needs."

She used the example of women working in the field with coveralls.

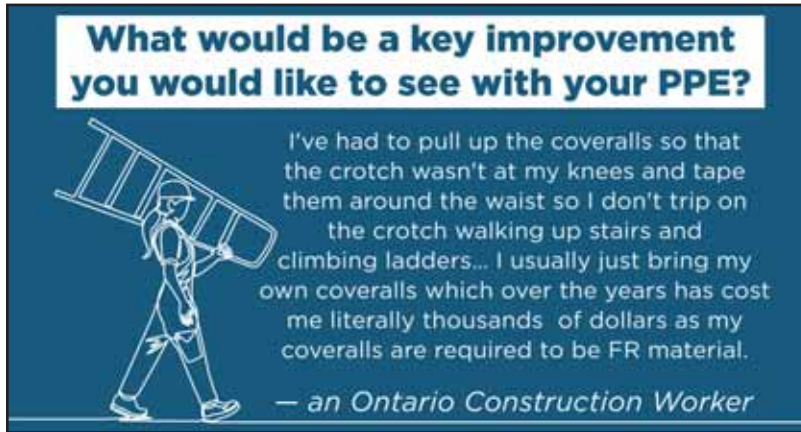

"Coveralls have a two-way zipper to help make it easier for men to take washroom breaks when they need them," she pointed out. "This clearly doesn't work well for women. Women have to practically disrobe in order to use the facilities and what they end up doing instead is just not drinking anything all day."

Thirty per cent of women in construction reported experiencing an injury or discomfort that they perceive to be caused by PPE incompatibility. The women said they pay more for PPE that is designed specifically for women or modify it to make it fit better.

Of the women who wear fall arrest gear only 33 per cent reported feeling very protected by their PPE and 94 per cent of those women had one or more issues with it.

"They are saying they have tissue damage on their torso because of pressure points," Teague said. "Women are using duct tape to modify their PPE or make it fit better."

"What's important to know is

that PPE is developed to a standard and then that PPE is certified to that standard, so if they are using a workaround or they are modifying it in any way, it no longer meets the certification of that product. Employers need to know this."

There are a number of gaps hindering the development of gender-responsive PPE, Teague said. One is the collection and availability of anthropometric data representative of the working population that is specific to Canada.

"It's very difficult to develop PPE and develop standards that will address the needs of individuals if you don't have a really good sense of the range of body sizes and dimensions that are representative in your

population," said Teague.

Another challenge is the need for consistent PPE regulations across Canada. The research also identifies the opportunity for further co-ordination by government, standards development organizations, manufacturers, suppliers and workplace representatives to increase the availability and selection of PPE available to women.

"Regulations vary across the country in terms of the requirements, in terms of considerations for fit and considering the needs of different populations," said Teague. "In order for us to move the needle on this we really need to have more consistent regulations across the country."

P3s facing headwinds but those can become tailwinds quickly

Continued from Pg. 1

"The last few years have been fairly chaotic at the council, but we found our feet are ready for the next wave of P3 activity."

The P3 sector has to evaluate what's working and what's not working, said Bain.

"Sometimes (we have) fierce family conversations that are needed to break through the impasses."

Among the stresses facing P3s are a host of economic factors, Mitchell said, including inflation, supply chain issues, commodity prices and labour market challenges, and societal factors such as the COVID pandemic and its "seemingly infinite ripple effects."

"I've certainly been around long enough to know that in this line of work, progress is very rarely linear," said Mitchell, who replaced long-time CCPPP CEO Mark Romoff last year.

Mitchell said some projects have been delayed or cancelled and others are being reevaluated in the context of affordability pressures. Key market participants have also left the sector.

"A decade ago, we passed through a period when all signs pointed to 'yes,'" she said, noting 2015 as a high watermark with 60 P3 projects.

"Well, the golfers out there will know what I mean when I say we're playing into a bit of a headwind. We've got to work harder and work different and we need to be patient. We need to remember that the direction of the wind and its intensity are always subject to change. Headwinds become tailwinds."

Even as the sector was being buffeted in recent times, it was exhibiting ingenuity in solving problems. Innovative solutions ensured the

FILE PHOTO

Despite some challenges facing the P3 sector in recent times, CCPPP president and CEO Lisa Mitchell highlighted ingenuity in solving problems such as the progress of the Tlicho highway in the Northwest Territories, seen here.

progress of the Tlicho highway in the Northwest Territories, and despite a variety of hurdles the Hamilton biosolids project reached substantial completion.

Three decades after the CCPPP was founded, "This made-in-Canada model has achieved global recognition," Mitchell said. "It's been embraced by other nations. It has made a difference in what gets built. We haven't just claimed that the P3 model works, we've proved it time and time again."

As she looks at putting her stamp on the agency, Mitchell said, the CCPPP will evolve.

"Our priorities in the council are very much being shaped by the realities of the market," she said.

The annual conference will remain an essential meeting place for global P3 participants, where best practices and ideas will be shared. But the CCPPP has decided it will facilitate a year-round dialogue, not

just at events but through other strategies as well, said Mitchell.

The agency will put a priority on policy and communications so that decision-makers at all levels understand the benefits of the P3 model "and the talents that the private sector brings to the job," said Mitchell.

There will be more research and roundtables "so that you get information and knowledge that you can put to work in your own offices and on your own jobsites."

Other outreach efforts, such as the new Candid Conversations platform, also represent an opportunity for the council to take a leadership role in bringing the industry together on mutual areas of concern, Mitchell said.

She summed up: "There will always be times when moving forward is harder and the path is less clear. But those of you here today, you have shown that challenges can be overcome; changes can be made; solutions can be found."

Ontario upends residential planning with its twin Bill 23 greenbelt assault

JOHN BLEASBY
CONTRIBUTING COLUMNIST

There is no doubt Ontario has a housing shortage. How that shortage is addressed, however, comes down to choices. Over the span of two weeks, the Province of Ontario under Premier Doug Ford has chosen sprawl.

Bill 23 came first on Oct. 25, a proposed piece of omnibus legislation called the More Homes Built Faster Act. Despite its slap-dash sounding title, a few elements of Bill 23 have been greeted positively, such as the issue of "gentle densification." For example, the construction of up to four housing units to a maximum of four storeys will be permitted on every lot in Ontario. Experts have long felt that densification in urban centres could be improved.

However, there are far more negatives than positives. One is the removal of municipal green standards, a significant blow to efforts aimed at improving the long-term energy efficiency of new homes.

Another is the erosion of municipal planning authority and the funding of infrastructure to support the 1.5 million new homes Ontario wants built over the next 10 years. It's a problem not limited to the largest urban centres.

For example, the County of Simcoe north of Toronto projects that development charge reform will cost the county \$175 million over the 10-year period. That's money needed to pay for the roads, water and sewers associated with new housing. Those costs will fall on the backs of existing homeowners in the form of property tax increases of four or five per cent.

"We're concerned that there's a departure from the philosophy that development pays for development and growth pays for growth, and there will be a bigger burden placed on the existing taxpayer," Nathan Westendorp, the county's director of planning said at a recent council meeting.

The net effect could, in fact, be a slowdown rather than an increase of new housing development. More alarmingly, the absence of a new funding model, the removal of housing services as an eligible development charge could mean less money to build social housing projects.

Yet to be addressed are the funding of schools and municipal facilities that make living in new developments both feasible and attractive for families.

On top of that, on Nov. 4 the Ontario government proposed, in a sudden move, the effective expropriation of 7,400 acres of greenbelt around the GTA and

Niagara regions.

This reversed a pledge made three years ago when Ford said, "The people have spoken. They don't want me to touch the greenbelt, we won't touch the greenbelt."

Climate and Construction
John Bleasby

The result of the proposed Bill 23 and greenbelt expropriation tag-team is the continuation of the 20th century instinct favouring urban sprawl.

Alongside Bill 23's undercut of the municipal planning process, the proposed development of the greenbelt lands appears both absurd and unnecessary when projections indicate only 50,000 of the 1.5 million new homes can be built on that land.

Mind you, for some of Ontario's largest residential developers, the Bill 23-greenbelt combo is a gift from the provincial gods. The CBC reports several of these companies own much of the 15 parcels of greenbelt being opened for development. For them and the others, the More Homes Built Faster Act means untapped land, minimal planning oversight and little obligation towards supporting infrastructure.

Stop Urban Sprawl groups across Ontario, where rapid urbanization is an impending reality, are finally receiving their deserved mainstream attention. Although a loose coalition, their singular message is articulated by the Canadian advocacy group Environmental Defence.

"Unless we stop it, the big sprawl will destroy green space, worsen urban flooding, waste millions in extra infrastructure costs, prevent us from meeting our climate change targets, and squander the millions of new homes and workplaces that are our last best chance to repair the post-war suburbs Ontario is saddled with already."

More Homes Built Better is a far cry from More Homes Built Better. The Ford government is already hearing that message from professional organizations, the public and municipalities.

RFQ CONTRACTOR - MODIFIED DESIGN BUILD CONSTRUCTION SERVICES \$60,000,000 est

CALEDON EAST, Peel, ON

Multiple Locations, Caledon East, L7C 0J9

TENDERS DUE, 28-Nov-22 at 2:00 PM ET. Solicitation #: 2022-119

Con Admin: Town of Caledon, Karen Pimentel, 6311 Old Church Road, Caledon East ON L7C 1J6 905-584-2272 x4075 Fax: 905-584-4325

Owner: Town of Caledon, 6311 Old Church Road, Caledon East ON L7C 1J6 905-584-2272 Fax: 905-584-4325

Repro: bidsandtenders, 455 Phillip Street, Waterloo ON N2L 3X2 800-594-4798

This Request for Pre-qualification (RFPQ) is a formal request for Responses from interested, qualified, modified Design Build Contractor Teams (Respondents) for future renovation, expansion and new construction projects: The purpose of this RFPQ is to prequalify Design Build Contractors who will be invited to submit a bid for the services related to the design, construction, and related work for future Town of Caledon (Town) capital projects, for 3 years with the option for two 1-year extensions. The estimated value of projects will range from \$1M to \$60M. Only the prequalified Respondents will be eligible to review and bid on the future Tender(s) related to the future capital projects. The successful Respondent for future tenders will act as the Town's Design Build Contractor and have sole responsibility for all necessary design build services (the Work). The following projects are anticipated (but not limited to): - 3 new Fire Stations - Mayfield Recreation Complex - Renovation and Expansion - Recreation Complex ~100,000 ft2 - New Build - Public Works Yard 3 ~58,000 ft2 - Demolition and New Build - Public Works Yard 4 ~58,000 ft2 - Demolition and New Build Projects are dependent on Council approval and funding availability. If successful in this process, a Proponent's official Pre-qualification status will ensure that their firm may receive Requests for Tender for the period of: - February 1, 2023 to January 31, 2026. - The term of Pre-qualification may be extended by the Town of Caledon for an additional one year term, February 1, 2026 to January 31, 2027. - with an option to renew for a final one-year term, February 1, 2027 to January 31, 2028. Documents can be obtained at: <https://caledon.bidsandtenders.ca> Question Deadline: Wed Nov 9, 2022 2:00:00 PM (EST) * The value for this project is based on a financial range. The value is listed as the highest possible cost from the range provided by a stakeholder or official project document.

Construction start 27-Jan-23; Completion by 31-Jan-26;

Bids to Role: Reprographer; Docs From: bidsandtenders Doc Notes: Documents can be obtained at: <https://caledon.bidsandtenders.ca>

Repro: bidsandtenders, 455 Phillip Street, Waterloo ON N2L 3X2 800-594-4798

The Zoo currently has three (3) Wildebeest. During the winter, they must stay inside to be out of the cold; consequently, they are not viewable by the guests. The Designer-Builder will be required to design and build the New Wildebeest Building which will serve as a holding barn where the Wildebeest can stay warm during the cold months but still be in view of the guests. Guests will be able to observe our Wildebeest through a covered viewing shelter, accessible from the public road. Documents can be obtained at: <https://torontozoo.bidsandtenders.ca> Question Deadline: 11/15/2022 at 12:00 PM ET Construction start 28-Dec-22; Completion by 31-Jul-23;

RFQ CONTRACTOR - HERITAGE PROPERTY RESTORATION CONTRACTORS \$500,000 est

MILTON, Halton, ON

Multiple Locations, Milton, L9T 6Z5

TENDERS DUE, 07-Dec-22 at 11:00 AM ET. Solicitation #: 22-589

Owner: Town of Milton - Purchasing, 150 Mary St, Milton ON L9T 6Z5 905-875-5404 Fax: 905-878-6995

Repro: bidsandtenders, 455 Phillip Street, Waterloo ON N2L 3X2 800-594-4798

The Town of Milton (Town) is seeking proposals from qualified Heritage Property Restoration Contractors for Town Hall West and Hugh Foster Hall. The intent is for the subsequent tender to be issued early 2023 as an estimated timeline. Tenders will only be received from the approved list of Pre-qualified contractors. Note: This project is subject to Town of Milton Council approval of the capital project budgets. The scope of work will be phased in 3 years. The 2023 construction scope is anticipated to be tendered in February 2023. The 2024 & 2025 scopes of work are subject to budget approval and will be tendered at a later date. The Town may issue one or more tenders for the 2024 & 2025 works.

2023 Construction Scope - Construction Period: April to September 30, 2023 For the principal projects completed, provide at least five (5) reference projects completed within the last five (5) years to demonstrate experience with similar project nature, size and complexity. The reference projects shall be of a minimum \$500,000 construction value. Documents can be obtained at: <https://milton.bidsandtenders.ca> Question Deadline: Fri Dec 2, 2022 12:00:00 PM (EST)

RFP D/B - AURORA TOWN SQUARE DONOR RECOGNITION DISPLAY \$60,000 est

AURORA, York, ON

Yonge St & Church St, Aurora, L4G 1M2

TENDERS DUE, 20-Dec-22 at 10:00 AM ET. Solicitation #: 2022-31-CMS-C

Owner: Town of Aurora, 100 John West Way, Aurora ON L4G 6J1 905-727-1375 Fax: 905-726-4732

Repro: bidsandtenders, 455 Phillip Street, Waterloo ON N2L 3X2 800-594-4798

This Request for Proposal ("RFP") is an invitation to qualified firms to plan, design, fabricate, and install a donor recognition display for the Town's newest community facility, Aurora Town Square, as further described in Part 2 - The Requirements, Deliverables and the Scope of Work ("the Deliverables"). The Town of Aurora is seeking proposals for the planning, design, fabrication, and installation of a donor recognition display for the Town's newest community facility, Aurora Town Square. The Town is also looking to request up to 12 plaques to be installed on the wall outside each sponsored room, to recognize that sponsor. A per unit cost for each plaque should be included within the proposal. The Town anticipates awarding this RFP in January of 2023 and expects work to begin February 2023 with design complete by May 2023 and installation complete November 2023. The objective of this project is for the Proponent to undertake the following tasks as identified and meet the project goals, which are to design, fabricate and install a donor recognition display and up to 12 donor plaques to be placed outside sponsored rooms, within a total budget of \$60,000. The selected Proponent is expected to conduct the following as part of the project: 1. Design the donor recognition display and plaques following the parameters in the Scope of Work. 2. Build/Fabricate the display and plaques. 3. Deliver and install the display and plaques within the facility at Aurora Town Square. Documents can be obtained at: <https://aurora.bidsandtenders.ca> Question Deadline: Wed Dec 14, 2022 12:00:00 PM (EST)

Owner: Town of Whitby, 575 Rossland Road E., Whitby ON L1N 2M8 905-668-5803 Fax: 905-686-7005

The Town of Whitby is intending to prequalify General Contractor's for a subsequent Tender process that includes the New Whitby Sports Complex (WSC) Project. The Town intends to prequalify up to five (5) of the highest scoring Proponents. Only Proponents that achieve an overall minimum score of 70 will be eligible to be selected as Prequalified General Contractors. The Town reserves the right to expand or reduce the number of Prequalified General Contractors at the Town's sole discretion based on scoring results. Only the Proponents selected, during the Prequalification procurement process, as Prequalified General Contractors will be eligible and invited to submit a bid for the subsequent Tender. The intent of the subsequent Tender will be to establish a contract for all labour, materials, equipment & supervision necessary to complete construction of the New Whitby Sports Complex (WSC) Project. Tender documents are planned to be published April 2023. This Prequalification will serve as a Notice of Intended Procurement for the subsequent Tender as per Chapter nineteen: Government procurement of the Comprehensive Economic and Trade Agreement Question Deadline: Tue Dec 13, 2022 11:59:00 PM (EST)

RFQ CONTRACTOR - MASONRY CONTRACTOR ACTING IN THE CAPACITY OF GENERAL CONTRACTOR - HERITAGE BUILDING \$2,000,000 est

OTTAWA, Ottawa, ON

100 Laurier Ave. E, Ottawa, K1N 6N7

TENDERS DUE, 23-Nov-22 at 3:00 PM ET. Solicitation #: 2022-40511

Con Admin: University of Ottawa - Physical Resources Service - Procurement, Len Gauthier, 139 Louis Pasteur Street, Ottawa ON K1N 6N5 343-961-3385 Fax: 613-562-5182

Owner: University of Ottawa - Physical Resources Service - Procurement, 139 Louis Pasteur Street, Ottawa ON K1N 6N5 613-562-5800 Fax: 613-562-5182

Repro: Merx, 6 Antares Dr, Nepean ON K2E 8A9 800-964-6379 Fax: 888-235-5800

This Request for Supplier Qualification (RFSQ) is an invitation by the University of Ottawa (Owner) to qualified mason contractors with experience acting in the capacity of General Contractor on heritage masonry projects specializing in limestone with rubble construction to submit proposals to be

prequalified to realize masonry work to support the conservation of 100 Laurier. The scope of services for the project is described further in the RFSQ and it is intended that it will be completed over the summer of 2023. To facilitate the review of Prequalification Submissions, the University requires that Proponents comply with the following guidelines. The University is not responsible for any oversight in the review of a Prequalification Submission that is caused by a Proponent's failure to adhere to these guidelines: 1. Prequalification Submissions must be submitted in soft copy in PDF format using MERX online Electronic Bid Submission function. 2. Prequalification Submissions must be on 8.5" by 11" pages and include text in Calibri format and 10-point font size. Requested Org Charts may be displayed on 11" x 17" pages. 3. Prequalification Submission content must be in a narrative format and must provide clear, complete, concise responses to the RFSQ requirements. Where the Proponent does not follow the format prescribed, the score may be affected. 4. Where information is requested in this RFSQ, any response made in a Prequalification Submission must reference the applicable section number of the RFSQ where the request was made. All requirements must be answered sequentially; and 5. The Proponent must ensure that all sections, attachments, annexes and appendices are completed according to the instructions set out in the forms and in this RFSQ. Official bid documents must be obtained from www.merx.com and bid submissions must be done through the Merx platform. Question Acceptance Deadline: 2022/11/15 03:00:00 PM EST

It is Queen's intent to hire a General Contractor to oversee the entire project, and provide supervision while work is ongoing at the site of the work. This role may be fulfilled by a Mechanical Contractor in the role of General Contractor including all responsibilities. The project consists of replacing penthouse duct work and fume hood exhaust fans. Work will also include installation of a glycol heat recovery loop to an existing AHU including all pumps and ancillary equipment. Two basement fume hoods and room ventilation will also be replaced. Scope of work will include but is not limited to: o All architectural, mechanical, electrical, and related general contracting services for the work in the area(s) delineated by the project design documents. Removal of existing exhaust air fans and ductwork within the penthouse. Installation of 4 roof mounted exhaust fans and associated ductwork. Replacement of 2 fume hoods and room ventilation valves Installation of a glycol heat recovery loop and associated pumps and equipment. Selective architectural demolition and construction to facilitate the mechanical and electrical work. PROPOSAL - COMMUNITY CENTRE KITCHEN RENOVATION \$50,000 est

ASTORVILLE, Nipissing, ON

1267 Village Rd, Astorville, POH 1B0

TENDERS DUE, 09-Dec-22 at 4:00 PM ET.

Con Admin: Municipality of East Ferris, Greg Kirton, 390 Hwy 94, Corbeil ON POH 1K0 705-752-2740

Owner: Municipality of East Ferris, 390 Hwy 94, Corbeil ON POH 1K0 705-752-2740

This Request for Proposal (RFP) is seeking proposals to complete all work and supply all materials to complete a kitchen renovation at the East Ferris Community Centre and Arena. It is intended that the project will include, but not necessarily be limited to, the following: 1. New commercial grade

equipment: a. Range with a flat top griddle - In total we're seeking 6 to 8 burners which could be all on the range or partially on the range with a secondary cooking surface adjacent to the range. b. The existing range hood was replaced more recently and should be able to remain without modifications. 2. Modification of the wall (non-load bearing) separating the kitchen from the hall space to allow for in and out doors and a modified serving area; 3. New flooring and wall finishings; 4. New flooring and wall painting in the room adjacent to the kitchen forming part of the banquet area; 5. New window coverings in the two rooms adjacent to the kitchen making up the banquet area; 6. All new cabinetry, countertops, and finishings; 7. All new appliances including 3 fridges and a dishwasher; 8. Replacement (and relocation, if required) of existing sinks while maintaining the existing number of sinks, including hand washing stations; 9. Addition of pantry storage area that can be dedicated to user groups as required; 9. All necessary plumbing and electrical work required to maximize the functionality of the space based on the chosen design; 10. All necessary structural modifications including framing, drywall and painting (multiple coats as required); 11. Any lighting changes identified in the project design; and 12. All necessary labor, materials, equipment, disposal of waste materials, and other incidentals; The official East Ferris contact for this RFP, to whom all requests and communications should be addressed, is: Greg Kirton, Director of Community Services: greg.kirton@eastferris.ca Documents can be obtained at: <https://eastferris.ca/en/your-government/tenders-procurement> Construction start 09-Jan-23; Completion by 30-Apr-23;

Owner: University of Windsor - Purchasing, 401 Sunset Avenue, Windsor ON N9B 3P4 519-253-3000 Fax: 519-973-7080
Repro: Bidding, 1210 Sheppard Ave, East, Suite 305, North York ON M2K 1E3 416-756-0955
In general the scope of work includes but is not limited to replace 74 video surveillance cameras in 6 buildings (Alumni Hall, Medical Education Building, CAW Student Centre, Armouries (downtown), Alan Wildeman Centre (AWC Downtown), and Windsor Hall (downtown). Included is the installation of two (2) new cameras at Assumption Hall (east stairwell - interior and one outside east side). Contractor to disconnect and remove existing cameras including brackets and turn over to the University. Contractor shall test the cabling to the camera before connection of new cameras. Contractor to schedule the testing with the University IT Department. Contractor to provide IT with the camera MAC Address of the cameras and IT will assign each camera an IP address. IT personnel will identify the ports to connect to, and set up the switch with the correct Vlan so they will work when plugged in. Contractor shall work Campus Police to commission the camera and point it in the required direction. All new cameras and brackets will be supplied by the University. Attached a list of cameras in each of the buildings (Appendix D) including building floor plans. (Appendix E)

The County wishes to prequalify Bidders to construct the new Caledonia Fire and EMS Station. Construction should begin in the Spring of 2023 with substantial completion anticipated to be the fall of 2024. This Bid Request is an invitation by

Haldimand County to prospective Bidders to submit Proposals to prequalify Bidders in a first stage process for the purpose of providing the Deliverables described herein. The scope of work will be tendered in a second stage which will include new construction of a combined Fire Services and EMS Station on an open greenspace property located at 250 Argyle Street North in Caledonia. The Fire portion of the building consists of approximately 6,372sqft which includes four (4) drive thru style bays. The EMS portion consists of approximately 1,432sq.ft. and two (2) drive thru style bays. The Fire Services portion of the main building includes offices, space for decontamination including the extractor/dryer room, locker area, washrooms with showers and laundry room, storage and maintenance facilities. The EMS portion includes an office, lunchroom/crew quarters, locker area, washrooms with showers, and stock room. There is approximately 7,836 sq.ft. within the building for shared spaces, including a training/meeting room for 48 persons with a kitchen and chair/table storage, a universal washroom, and space for display of an antique fire truck. The total square footage of the building is approximately 15,640sq.ft. The scope of work also includes site work, site services, landscaping and the construction. Documents can be obtained at: <https://haldimandcounty.bidsandtenders.ca> Question Deadline: Fri Nov 18, 2022 4:30:00 PM (EST) Construction start 20-Mar-23; Completion by 22-Sep-24;

ME Eng: United Engineering Ltd, North York ON
Redevelopment of 1625 Military Trail & 6000 Kingston Road. The 3.05-acre parcel will be developed with a residential complex featuring two 8-storey mid-rise buildings containing 549 units, oriented with U-shaped buildings facing southwest towards the adjacent Highland Creek ravine parks. The buildings are finished in a mix of window wall cladding with glazing and opaque spandrel panels along with precast panels with inlaid brick veneers. Residents would have access to 1,240 square meters of indoor amenity spaces located on the ground floor and 1,240 square meters of outdoor amenity space in internal courtyards. Three levels of underground parking will house 521 parking spaces, that will also include 466 bicycle parking spaces, 422 of which are long-term and 44 short-term. **TIMELINE:** Construction began late summer, 2022. Sub trades will be secured sequentially by invitation.
Start Date: 01-Aug-22; Completion by 05-Aug-24;
This Report Date: 23-Nov-22.

TORONTO EATON CENTRE REVITALIZATION - GALLERIA ROOF REPLACEMENT

Elec Eng: The HIDI Group - Toronto, North York ON
Refurbishment of its galleria skylight roof. The existing glass will be replaced with the latest materials and technologies to improve energy efficiency while maintaining its classic design aesthetic. The project will be carried out in two phases, starting with the south end of the mall (Queen Street to Centre Court). **TIMELINE:** Phase One construction is underway as of mid-January 2022. Phase Two construction is expected to begin March 2023. Sub trades are being secured through a prequalified process only. The project is expected to be completed fall 2024. *Project has been estimated at approx. 60 million.
Start Date: 14-Jan-22; Completion by 31-Oct-24;

Visit www.dcnonl.com/certificates-and-notices to search all Certificates of Substantial Performance, Certificates of Completion of Subcontract, Notices of Intention to Register a Condominium, Notices of Non-Payment of Holdback, and Notices of Termination.

NOTICE: Effective July 1, 2018, amendments to the Construction Act are reflected in the Certificates and Notices section of Daily Commercial News. These amendments required minor changes to the forms for Certificate of Substantial Performance (now called Form 9), Certificate of Completion of Subcontract (now called Form 10), and Notice of Intention to Register a Condominium (now called Form 11). The amendments also required publishing of two new notices: Notice of Non-Payment of Holdback using Form 6, and Notice of Termination using Form 8. To learn more about the amendments, visit www.dcnonl.com/construction-act.

Visit www.dcnonl.com/submit-manual to download Forms 6, 8, 9, 10 and 11.

To publish certificates and notices, email dcncertificates@constructconnect.com or fax 1-800-947-7966. For more information call 905-752-5482.

Those placing notices are responsible for ensuring Daily Commercial News receives, by fax or otherwise, all necessary information and for reviewing Daily Commercial News upon publication for any errors or omissions and advising Daily Commercial News at once. Daily Commercial News will make good any errors or omissions attributable to it in the next available issue, but will otherwise bear no liability whatsoever for any failure to publish any notice, however caused and even if arising from Daily Commercial News' own negligence.
